Goofy, cheesy and fun! Music is nice and you get to kick theu2665u2665u2665u2665u2665of some celebs :) Definetly the right game to de-stress and have some no brain fun.. Got this game for about \$0.48. I'd say this game is easily worth \$5.00. The music in it is just amazing and I love how true this game is. For instance, Frederic had this horrible phobia of being buried alive so in his will, he stated that he wanted his heart removed from his chest and in this game, he's trying to find it. Pretty cool stuff man.. Got this game for about \$0.48. I'd say this game is easily worth \$5.00. The music in it is just amazing and I love how true this game is. For instance, Frederic had this horrible phobia of being buried alive so in his will, he stated that he wanted his heart removed from his chest and in this game, he's trying to find it. Pretty cool stuff man.. No bugs, good pace and enjoyable art. Essentially Guitar hero with a keyboard.. i think that the controls are poo poo doo doo but maybe i'm just really bad at this game or both. Frederic is back with a new piano, a new ride and a new look. He no longer looks like a dirty Van Helsing, now he looks like a wanna be Michael Jackson. I have carpal tunnel in my left wrist after beating the game. I prefer the other games musical tracks to this one. These tracks are rather long and quite hard to beat on higher difficulty. Anyways, can't beat the price.
